

Mobile solar power trailer

Overview

What is a mobile trailer solar power system?

A mobile trailer solar power system is a fully transportable solar power system designed to supply relatively small remote houses, radio repeater equipment, and other remote loads. Priced similarly to an installed system of the same capacity, it features 240VAC pure sinewave output and more than 4 days of battery backup capacity.

Which are the best solar powered camping trailers?

The Bowlus Road Chief, Bruder EXP-6, and Colorado are solar powered camping trailers that are popular choices. The Bowlus Road Chief features an aluminum skinned body, while the Bruder EXP-6 is a storm-proof off-road trailer capable of accommodating adults of average and above-average height. The Colorado is also a solar-powered off-road teardrop trailer.

What components are included in a solar trailer?

A solar trailer includes a 210W to 250W solar panel, a Blue Sky Energy Solarboost 3024DiL MPPT solar regulator, and a Geltech deep cycle battery bank. The trailer also features a vandal resistant lockable equipment enclosure and an 8m extendable mast for communications antennae.

Are mobile solar generators reliable?

Mobile Solar has been providing reliable, portable solar power systems for over 20 years. Our solar generators are perfect for construction sites, remote locations, homes, and emergency backup power. Designed and built in California, our towable units are quiet, durable, and hassle-free, ensuring you always have the power you need, wherever you go.
