

# Mobile solar security trailer

## Overview

---

What is a solar-powered mobile surveillance system?

WCCTV's solar-powered mobile surveillance systems deliver complete autonomy on every level, no matter the situation. They are self-powered, with high-performance solar panels supporting an ultra-long-run battery pack, making them ideal for off-grid locations, temporary security applications, or any site without power facilities.

What is a solar trailer & how does it work?

With its towering 20-foot presence, the solar trailer lights up any area it's placed in, clearly visible from afar. Equipped with loudspeakers, flashing lights, and sirens, it serves as a powerful deterrent, making it a formidable force that discourages criminal activity and promotes safety.

Why should you use a mobilesecurity camera trailer?

The Mobilesecurity.net camera trailer has been a game-changer for us. Positioned at our back-of-house entrance and construction site, it has significantly reduced theft, helping us identify and prevent intrusions. It has also been instrumental in managing deer intrusions, saving us from costly damage in our gardens.

What features are included in a mobile security trailer?

Advanced surveillance: Includes electronic stabilization, low-light capability with thermal & intelligent IR, and adaptable motion detection via deep learning. IP/SIP Audio allowing Live Talk-Down and 2-Way Audio. Listen and Speak within 100 feet of Trailer Introducing Mobilesecurity.net, Stone Security's premier line of mobile security trailers.

Why should you buy a commercial security integration trailer?

Born from 20 years of commercial security integration expertise, our trailers redefine industry standards with superior quality, ingenuity, and precision

engineering. As the trusted global leader in security integration, we surpass expectations with trailers designed to exceed modern security demands.
