Do you need a permit to install solar panels in Ukraine?

The Cabinet of Ministers encourages the installation of solar power plants by both individuals and legal entities. Starting from July 1, 2023, no permit is required to install solar panels with a capacity of up to 30 kW in Ukraine, and preferential "zero" loans for households are issued for the purchase of equipment with a capacity of 1-10 kW.

How much does a solar power plant cost?

The cost of a mini-station based on a portable charging station, which will meet the minimum needs of a family with gas heating in winter, is about 100 thousand UAH. A small solar power plant with a turnkey inverter costs about \$5,000. It is worth noting that most houses have enough power from 5 to 15 kW.

Can solar panels be connected to a charging station?

Solar panels can be connected to charging stations, such as EcoFlow, using a special cable. There are ready-made portable systems with solar panels that are easy to turn on. The disadvantage of such systems is their low power and low level of electricity generation.
