What's new in Ireland's second renewable electricity support scheme (Ress)?

Image: Highfield Solar. Two solar developments awarded contracts in Ireland's second Renewable Electricity Support Scheme (RESS) in 2022, have reached new milestones, with one entering construction and another newly operational. Neoen has provided notice to proceed on the construction of the 21.7MWp Threecastles solar power station.

How much do solar panels cost in Ireland?

The cost of installing solar panels in Ireland can vary depending on several factors such as the size of the system, quality of equipment, and which solar company you choose to install your system. On average, the price of installing solar panels on the roof of a typical residential property can cost anywhere from €4,000 to €12,000.

How long does it take to pay off solar panels in Ireland?

This coupled with a generous government solar grant of €1,800 means Irish homeowners are paying off their panels in 7 years or less. Solar Finder was set up to connect Irish homeowners with reputable installers at discounted rates.

How do I choose a solar panel installer in Ireland?

When choosing a solar panel installer in Ireland, it's important to ensure that they are a registered solar installer with the "Sustainable Energy Authority of Ireland (SEAI)". This is required in order for your system to be eligible for any

SEAI grants or subsidies that may be available.

Is Ireland a good place to get solar?

In fact, it's the exact opposite. Ireland, while not getting much heat, gets plenty of sunshine which makes it one of the most profitable places in the world to get solar. This coupled with a generous government solar grant of €1,800 means Irish homeowners are paying off their panels in 7 years or less.
