

# **Mobile solar unit off-grid project cost in New Zealand**

## Overview

---

For around \$2000-4000, you can start with a small solar kit in NZ (solar panels, batteries, inverter, charge controller, wiring etc) to run your lights and fridge and charge your phone. Then you have other costs to consider. Cooking can be cheap with a portable gas cooker or wood.

For around \$2000-4000, you can start with a small solar kit in NZ (solar panels, batteries, inverter, charge controller, wiring etc) to run your lights and fridge and charge your phone. Then you have other costs to consider. Cooking can be cheap with a portable gas cooker or wood.

Going off-grid in New Zealand with solar power represents both an exciting opportunity for energy independence, a cheaper operational cost of living, and a material contribution to sustainable energy generation. This comprehensive guide will help you understand how off-grid solar works — and what.

Therefore, Portable Dwellings keeps it simple with transparent pricing, practical system advice, and a guided setup from quote to handover. We design homes and solar together, so the system matches your lifestyle rather than being an afterthought. Moreover, you'll know exactly what's included and.

We specialise in Off Grid Solar Energy solutions which we offer New Zealand wide. Our team will travel to you to complete the installation personally to the highest standard. Our systems can either be roof mounted or ground mounted in a variety of configurations. We use high quality componentry.

Our off-grid solar packages include everything you need to go off the grid in New Zealand: solar panels, batteries, charge controllers, inverters, cables, and DIY-friendly manuals backed by our lifetime support. Browse through our series below. Each of our off-grid solar system includes everything.

Designed, developed and made in New Zealand this doesn't only makes off-grid installations cheaper and faster, this opens a door for complete new applications of solar power. The "Plug 'n' Free" system brings power everywhere you find a sun exposed flat surface. It is built rock solid and solves all. Why does New Zealand have a small off-grid Solar System?

It's because different areas around New Zealand have varying official sunshine hours according to NIWA. You can read more in our latest article "Off Grid Solar For Dummies". The PS: Tiny off grid system only comes with six solar panels (2.58kW total). This will not be sufficient for many locations around Aotearoa.

How much does a solar system cost in NZ?

The same is true for the cost of a completely off grid solar system. For around \$2000-4000, you can start with a small solar kit in NZ (solar panels, batteries, inverter, charge controller, wiring etc) to run your lights and fridge and charge your phone. Then you have other costs to consider.

How much does an off-grid solar system cost?

Prices Slashed on Selected Off-Grid Systems. Limited Time Our new ULTRA off grid solar systems using the latest technology are made in New Zealand and priced from \$15,995 inc GST. The base system sizes below are a guideline only.

What is off-grid solar?

Off-grid solar refers to a solar power system that operates independently of the electricity grid. Unlike grid-tied systems, which are connected to the grid and can import or export electricity at any time, off-grid systems are entirely self-sufficient.

Should I buy an off grid tiny house in NZ?

We offer various power output ranges as you can see from the table on this page, but off grid tiny houses in NZ usually require the highest option. The cost is an investment in your future and the future of the planet. Our Solar Kits are built, configured and electrically certified within a strong, fashionable Weathertight Box.

How much does it cost to go off grid?

Going off grid has fluctuating costs - there are standard things like either owning or renting land which all depends on the area and size, and creating a shelter of some kind which can range from a tent to \$100,000 tiny house. The same is true for the cost of a completely off grid solar system.
