

# Mobile solar unit project ROI in Mexico

### **Overview**

Each system can generate up to 800 MWh per year, with estimated savings of between 2 and 2.5 million Mexican pesos per year, which translates into an ROI of 18 to 24 months. This project avoids the emission of up to 615 tons of  $CO_2$  annually, equivalent to planting more than 15,800 trees.
