

# Mobile solar unit quotation in Croatia 2026

## Overview

---

How much will Croatia spend on solar?

Croatia is set to allocate €25 million for solar plants and heat pumps in the public sector and will also issue a €10 million residential solar tender. This is part of a larger €652 million package aimed at renewable energy and decarbonisation.

Will Croatia launch a solar tender in 2025?

According to the country's indicative annual publication plan for 2025, published on 8 January, Croatia plans to launch two solar tenders. The first tender, with a budget of €10 million, will be aimed at installing residential solar arrays in the second quarter of 2025 and will cover up to 50% of the investment costs.

How much does a solar tender cost in Croatia?

The first tender, with a budget of €10 million, will be aimed at installing residential solar arrays in the second quarter of 2025 and will cover up to 50% of the investment costs. Additionally, the Croatian authorities will announce a €25 million call to co-finance solar plants and heat pumps for the public sector in the second quarter.

How many public calls will Croatia make in 2025?

Another call for end users is expected in the first half of the year. Croatia's Environment Protection and Energy Efficiency Fund (FZOEU) will distribute €125 million across nine public calls in 2025. The Ministry of Environmental Protection and Green Transition (MZOZT) will administer 23 public calls this year, amounting to €526.8 million.
