Mobile solar unit quotation in Portugal 2030

Overview

Will there be a solar auction in Portugal in 2021?

In Portugal, the Government intends to continue to hold solar auctions in the coming years, but there are still no dates for the new solar tenders in 2021. Even so, according to the goals outlined in the PNEC, the country aims to achieve a solar installed capacity of 6,6 GW in 2025, and 9 GW in 2030.

Does Portugal have a solar market?

Portugal, however, offers room for expansion in the self-consumption and floating solar markets. The Portuguese government devised two market mechanisms, auctions and direct agreements, with the goal of installing 9 GW of PV capacity by 2030. Permitting issues, though, might be impeding the accomplishment of this objective.

How does solar energy work in Portugal?

Solar energy can be captured using solar panels, which are made up of photovoltaic (PV) cells that convert sunlight into electricity. The Portuguese solar energy market is segmented by end-user. By end-user, the market is segmented into residential, commercial, and industrial (C&I).

Will solar power power Portugal in 2022?

Further electricity generation from solar sources reached 2.54 TWh in 2022. Solar is expected to play a leading role in the Portuguese government's new energy plan, which includes providing 80% of the country's power demand from renewables by 2030 and 100% by 2050 and electrifying 65% of the economy by 2050.

How has solar technology changed the energy industry in Portugal?

Particularly in solar, there has been a significant reduction of costs associated with PV technology since 2017 which, alongside with the high level of predictability of solar resources, has led to an increase of the number of

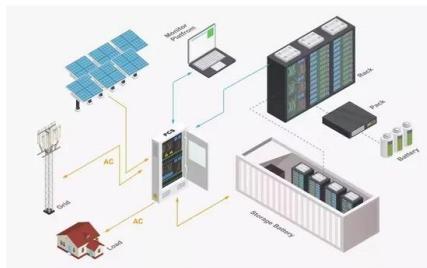

requests for energy production licenses in Portugal.

What is the future of energy storage in Portugal?

The installed capacity of electrolysers at the end of this decade is expected to reach 5.5 GW. For energy storage, the target is to reach 1 GW of batteries and 3.9 GW of pumped storage by 2030. AleaSoft provides multiple services to help agents operating in the Portuguese market to achieve these objectives.
