What is a turnkey solar system?

VeloSolar • Updated on March 13, 2023 • 8 minutes read In the solar world, Engineering Procurement and Construction (EPC) contractors typically provide a turnkey service. They deliver a ready-to-use solar system; when they're done working, all you have to do is turn the proverbial key and you're generating your own clean, renewable energy.

What are the key features of our turnkey solutions?

The key features of our turnkey solutions are: Our offer ranges from consulting services in the area of planning, procurement, set-up and start-up of a solar

cell production line up to a turnkey solution. The most recent case is CETC's own investment of USD 250 million in a mega solar manufacturing plant in Andhra Pradesh, India.

What is a turnkey EPC contract?

The key thing to note is that with a turnkey EPC contract, you can't get just a piece of the package. For example, if you just want to dip your toe into solar to see if it would be a good fit for your business, an EPC contract won't allow you to just purchase an energy assessment or a site survey – you have to buy the entire solar package.
