Overview

What are solar power EPC services?

Our power and renewable energy services incorporate all significant forms of renewable energy generation. In our solar power EPC services, we assist our valued customers to bring their renewable energy projects from the early stages to the commissioning level. We deliver engineering services in major areas of renewable energy including:.

Does EPC solar offer a loan structure?

EPC Solar is mindful of the financial circumstances of many clients who wish to leverage solar power in the coming years. We offer a beneficial loan structure that will spread out the costs of investing in such a system. In most cases, this will provide a cash flow positive solution to the client from day 1.

What is a shipping container solar solution?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system.

What is a solar container?

Designed for mobility, our solar containers are easy to transport and install, making them ideal for remote locations or temporary setups. Perfect for off-grid projects, backup systems, or renewable energy initiatives, our solar containers offer a sustainable and reliable energy option.

Why should you choose EPC solar?

EPC Solar aims to provide the highest quality, value for money renewable energy solutions for our clients. We provide engineering excellence along with the longest warranties available in the industry and all solutions are future-proofed with scheduled maintenance service offerings.

What products are used by EPC solar?

Products used: Sungrow Inverters with Yingli Energy Solar Modules Fun Fact: EPC Solar have sponsored Cricket ACT and AFL Canberra and Phillip Oval was renamed EPC Solar Park. EPC Solar respectfully acknowledges the Aboriginal and Torres Strait Islander people as the traditional custodians of the lands where we live and work.
