Nasa the solar system

[Planet Sizes and Locations in Our Solar System](#)

Our solar system has eight planets, and five officially recognized dwarf planets. Which planet is biggest? Which is smallest? What is the order of the planets as we move out from the Sun? This is a simple guide to the sizes ...

[Solar System: Planets, Moons, and the Sun Explained](#)

At its most fundamental, the solar system consists of the Sun and all the objects that orbit it due to its gravity. This includes the eight major planets, their moons, the dwarf planets like Pluto, hundreds of thousands of ...

Model How the Solar System Formed

Get to know our solar system and what makes it so special by visiting NASA's Solar System Exploration website and exploring the interactive below. Consider the diversity of celestial bodies in our solar system beyond the ...

Chapter 1: The Solar System

The solar system has been a topic of study from the beginning of history. For nearly all that time, people have had to rely on long-range and indirect measurements of its objects. For all of

human history and pre-history, ...

Our World: What Is a Solar System?

Learn just what makes up a solar system and find out how we classify the thousands of objects in our own solar system. Since the production of this video New Horizons has reached, and is providing information on, the Kuiper Belt.

In Depth , Our Solar System - NASA Solar System Exploration

Our solar system consists of our star, the Sun, and everything bound to it by gravity - the planets Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune; dwarf planets such as ...

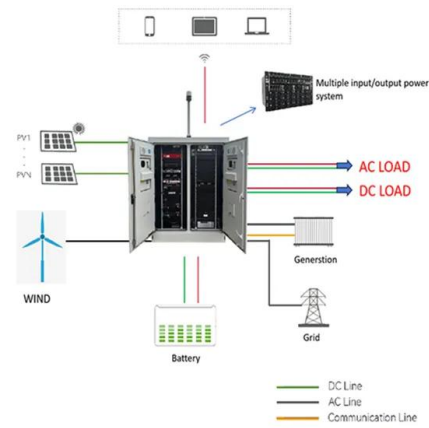

Solar System

The Solar System includes the Sun and all objects that are bound to it by gravity and orbit it. [14][15][16] The International Astronomical Union describes the Solar System as all objects that are bound by the gravity of the Sun, the Sun itself, ...

Solar System Exploration Division

From the Moon and Mars to distant bodies like Bennu, Titan, and celestial realms beyond, Goddard scientists systematically investigate the solar system and planetary systems throughout the cosmos, advancing humanity's ...
