Overview

Who are our solar PV installers?

Our solar PV installers have accreditations and certifications with CHAS, IET, MCS, NICEIC, RECC, ISO 9001 and ISO 14001. We are fully insured for the work that we carry out, and we only work with the highest quality providers of solar panels including Canadian Solar, JA Solar Panels, Sharp, Panasonic, and more.

Does your new home need a rooftop solar system?

Once you are setup, SunPower will take it from there. In 2020, California became the first state to require net zero energy construction on all new homes, including a mandate that all new homes include a rooftop solar component. The SunPower New Homes Department is here to help you understand how this mandate affects new home buyers like you.

Where can solar panels be installed?

Solar panels can be installed on properties located up to 150km from Adelaide, Brisbane, Canberra, Melbourne, Sydney CBDs and some areas in Northern Queensland.

Does SunPower have a new home?

SunPower's latest achievement revolves around new home construction, recently topping our 100,000th home with a fresh set of solar panels. What happens once you sign the dotted line?
