

New build solar panel reviews

Overview

Which solar panels are best for your home in 2025?

Our expert and consumer reviews of the leading brands of residential solar panels show the best solar panels to suit your home in 2025 I chose Panasonic solar panels because they have a partnership with Tesla and Panasonic has a good reputation. SUN Power set me up with Sopris back in June of 2022. I still do not have working panels.

How do I choose the best solar panels for my home?

To help calculate the best solar panels for homes, the Forbes Home editorial team analyzed 19 solar companies, with each company's star rating determined by evaluating a variety of metrics, including years in business, panel variety offered, the results of our NPS survey and more.

How do I choose the best solar panel brand?

The ConsumerAffairs Research Team conducted an unbiased evaluation of top solar panel brands on the market. To pick the best, we looked for high efficiency ratings, comprehensive warranties and good customer reviews.

Which solar panels are best for your home?

Our top recommendations for residential solar customers are the panels from Maxeon. This manufacturer has a long history in the solar industry and is known for its innovations and solar technologies that push the envelope in terms of efficiency, performance, durability and overall quality.

How do I choose the best solar installer?

A quality solar installer will typically install quality solar panels, so your main focus should be choosing the best solar installer for the job—your installer's experience and your solar system's size have a bigger impact on effectiveness. Still, every home is different, and most will benefit from having the most efficient panels on the market.

Are solar panels worth it?

Buying from these manufacturers means lower chances of getting quality panels or seeing your warranty claims honored. The small upfront savings you can get from these panels simply isn't worth it. To buy the best solar panels, be sure to compare prices, warranties, and efficiencies of different solar panel manufacturers.
