## **News related to solar**

## Overview

---

Check out our selection of solar energy news from all over the globe. All the top recent events in solar thermal and photovoltaic market. The latest research, innovative technologies, industry trends and forecasts, financial news, large projects, governmental policies in.

Check out our selection of solar energy news from all over the globe. All the top recent events in solar thermal and photovoltaic market. The latest research, innovative technologies, industry trends and forecasts, financial news, large projects, governmental policies in.

The global solar market is burgeoning, and it's predicted that the world will have 1 trillion watts of installed solar PV capacity by 2023. There are enormous potential and massive opportunities for energy investors; as well as for renewable energy supporters who are striving to achieve SDG 7.

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

See the latest on Solar Power. From breaking news to in-depth reporting, Bloomberg tracks the full story in real time.

National Grid Ventures (NGV) will test the world's first 100% hydrogen-fueled linear generator at its Northport plant for 12 months, supported by \$11 million in New York State funding. Maxeon Solar Technologies says its net loss widened to \$65.5 million in the first half of 2025, while Power.

India's solar surge: 18 GW installed in H1 2025, up 31%! Hybrid projects and robust rooftop growth drive the energy revolution, despite ongoing challenges. Germany's solar surge: 1,408 MW added in July, surpassing halfway to 2025 goals, driven by reforms and community benefits, with Bavaria leading.

The United Kingdom has launched a partnership with the Kyrgyz Republic to develop a financial model that will help the Central Asian nation attract foreign investment into renewable energy, the British Embassy in Bishkek said on Wednesday. India's Jakson Group has unveiled a plan to invest INR 80. What's

happening in the solar industry?

NextEra expands West: Utah backs a 200MW Salt Lake City battery with a 25-year tax break, boosting grid stability & clean energy. 11.04 GW of new solar capacity in July, down about 48% YoY: China's PV sector sees a slowdown but shifts focus to quality and strategic. Trade wars & oversupply: India's solar industry at a crossroads.

How has the solar industry changed over time?

The solar industry has always moved in waves – periods of steady progress punctuated by sudden leaps in technology. While it can. Read More. The U.S. solar industry is very familiar with addressing market uncertainties.

How much solar power will the world have by 2023?

The global solar market is burgeoning, and it's predicted that the world will have 1 trillion watts of installed solar PV capacity by 2023.

Why did the World Bank approve a solar project in Oman?

The World Bank's International Finance Corporation on Friday approved a loan and investment worth up to \$250 million in a polysilicon manufacturing project in Oman for solar power applications, over the objections of the IFC's U.S. executive director, two sources familiar with the board vote said.

What happened to solar power in H1 2025?

Reuters analysis shows utility-scale solar capacity still climbed 10 % in H1 2025, led by Texas and Arizona, even after tax-credit cuts. China's JinkoSolar files second EU Unified Patent Court case against rival Longi, claiming infringement of premium back-contact technology.
