If you need help designing or installing an off-grid solar system, contact the experts at GoGreenSolar. Whether you're converting an existing system to off-grid or starting from scratch, we can guide you to the best energy-saving solution you're looking for.

What is an off-grid Solar System?

With an off-grid system, you are entirely independent of the grid and 100% responsible for your power needs. You won't be able to harness extra electricity from the utility company. Learn more about off-grid vs. grid-tie systems. Ready to add an off-grid solar system to your home?

Speak to one of our off-grid solar experts today!.

Are off-grid solar systems the same as grid-tie solar systems?

Off-grid solar systems are not the same as grid-tie solar systems. With an off-grid system, you are entirely independent of the grid and 100% responsible for your power needs. You won't be able to harness extra electricity from the utility company. Learn more about off-grid vs. grid-tie systems. Ready to add an off-grid solar system to your home?

.

How much does an off-grid solar system cost?

The total cost of an off-grid solar system varies widely depending on your energy needs, location, and whether you choose a DIY or professional installation. A small system for a cabin or RV might cost around \$3,000 to \$7,000, while a full-scale home system could range from \$15,000 to \$50,000 or more.

What should I do if my solar system is off-grid?

Check for loose connection points and re-tighten wires if necessary. Wipe any dust and grime off the batteries to keep the connection points and case of the batteries clean. If you need help designing or installing an off-grid solar system, contact the experts at GoGreenSolar.

Do you need a backup generator for an off-grid Solar System?

For that, off-grid systems must include a source of backup power. For most people, that means adding a backup gas generator to get through periods of low solar production. Be sure to budget for a backup generator as part of the overall cost of your system. Need Help?

We'll help you design an off-grid solar system.
