What is a solar off grid kit?

These off grid kits are tailored for homes, cabins, or sheds. Take the hassle out of installation and ensure your system is equipped with just what you need for your lifestyle. These kits include all of the cables, connectors, adapters, solar panels, needed to get up and running with quiet, free reliable solar power!.

How do I design an off-grid Solar System?

Designing an off-grid solar system can be complex. There are three factors to consider when sizing for off-grid solar: The most common off-grid system configurations range from 5kW to 21kW. However, energy usage varies for every household, so the best approach is to design a custom off-grid solar kit based on your specific energy usage patterns.

Can a solar kit support a complete off grid Solar System?

Each solar kit is built to support a complete off grid solar system, making it easier than ever to live off the grid with confidence. Whether you're just starting out or upgrading your current setup, we offer systems ranging from compact 1KW solar kits to powerful 200KW off grid solar systems.
