Off grid solar system melbourne

Overview

Who are off grid energy Australia?

Off Grid Energy Australia Are Expert Designers & Installers of Off Grid Power Systems, Stand Alone Solar Systems & Solar Battery Storage.

What is off-grid solar?

It's our dream to help every Australian get 'off the grid' one day. This dream keeps us on the leading edge of off-grid solar, solar batteries and stand alone solar systems. Off-grid energy – what does it mean?

Off-grid solar systems or stand-alone solar systems are designed to provide electrical energy where grid power is unavailable.

What is an off-grid solar energy system with battery storage?

An off-grid solar energy system with battery storage offers a range of benefits for remote businesses, particularly those who are in regional Victoria. We design and install larger-scale off-grid systems based on your power usage and requirements. The commercial level stand alone solar systems start from 40kWh storage capacity.

How reliable is off-grid solar power?

Off Grid Solar Power can be as reliable and affordable as being connected to the grid. With today's lithium battery technology combined with the new generation of solar battery system inverters and chargers, anyone can produce their own electricity, in any remote location.

Why should you choose off grid solar Melbourne?

Off Grid Solar Melbourne will work toward optimizing your power savings using some of the new advanced tech innovations. Our aim is to improve your business bottom line. Give us a try Phone 1300 793 552. We support you with a guarantee of the quality of construction we provide.

Why should you choose off grid solar kits?

At Off Grid Solar kits, we can customize a unique system to meet your power requirements perfectly. Talk to battery specialists like off grid solar kits before installing any stand-alone solar system or off grid battery bank, and you will get a high quality, reliable system at a great value price.
