

Portable pv container quotation in Australia 2026

Home Energy Storage (Stackble system)

High Efficiency

Easy installation

Safe and Reliable

Perfect
Compatibility

Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimization
- Integrated with inverter to avoid the compatibility problem

- LFP battery, safest and long cycle life
- Stackable design, effortlessly installation
- Capable of High-Powered
- Emergency-Backup and Off-Grid Function

Overview

What is the ultimate portable power station?

This is the ultimate portable power station – a 20 foot container decked out with full off grid power equipment. Includes a large Victron Quattro 10kVA inverter, 10kWh lithium batteries and 4.95kW of Solar installed on the roof with slide out & folding Solar panel mounting for easy transport and easy setup on-site.

Why should you choose a container for a remote worksite?

Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions. Fully customisable, they can include insulation, ventilation, secure access points, and weatherproofing to keep your equipment safe and operational.

Why should you choose a modular energy storage container?

Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities. The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kwh, making our energy storage container perfect for meeting growing energy demands.
