

Portable pv system EPC service price in South Africa

Overview

Why do I need an EPC?

Entering into a EPC means you support cleaner power generation, lower your monthly expenses, and avoid the risks of owning a solar system. Contact Billion Power Solutions to begin the process. South Africa has faced ongoing electricity challenges, leading to increased interest in solar power as a reliable alternative.

What does an EPC contractor do?

An EPC contractor manages the full scope of a solar project. This includes feasibility studies, design and planning, procurement, installation, and final commissioning. We act as your single point of contact and handle everything required to deliver your solar plant.

What are the benefits of EPC contracts?

EPC contracts can reduce project costs by 20% compared to traditional multi-contract methods due to streamlined processes and economies of scale . EPC contracts typically reduce project timelines by up to 30%, ensuring quicker commissioning and faster return on investment .
