## Overview

---

France releases new FIT rates for PV systems up to 500 kW France's new feed-in tariffs (FITs) for February to June 2025 range from €0.0839 (\$0.0907)/kWh to €0.1295/kWh, depending on system size.

France releases new FIT rates for PV systems up to 500 kW France's new feed-in tariffs (FITs) for February to June 2025 range from €0.0839 (\$0.0907)/kWh to €0.1295/kWh, depending on system size.

France will cut value-added tax (VAT) to 5.5% on residential PV systems up to 9 kW starting in October 2025. From pv magazine France The French government has outlined the conditions for applying a 5.5% VAT rate to residential solar installations under 9 kW, effective Oct. 1. The industry is still.

Recently, the French government approved the 2025 Budget Law, reducing the VAT on photovoltaic (PV) systems to 5.5% for systems up to 9 kW. This policy marks a significant step forward in the development of the French PV industry and has a positive impact on the global solar market. As a leader in.

France releases new FIT rates for PV systems up to 500 kW France's new feed-in tariffs (FITs) for February to June 2025 range from €0.0839 (\$0.0907)/kWh to €0.1295/kWh, depending on system size. March 31, 2025 Gwénaëlle Deboutte Commercial & Industrial PV Highlights Installations Markets Policy.

In 2024, the French government introduced significant cuts to feed-in tariffs (FITs) – the rates paid to PV system owners for feeding surplus electricity into the grid. The trend has only intensified in 2025. As of early 2025, PV systems with a capacity of up to 9 kW now receive a feed-in tariff.

France added 4.6 GW of new solar capacity in 2024, pushing its total to 22.1 GW. With ambitious targets set for 2030 and beyond, the country is ramping up ground-mounted and rooftop tenders, but faces critical headwinds in permitting, land availability, and price volatility. This article outlines.

The 2025 Europe PV system pricing report covers solar capex for 15 major countries across residential, commercial and utility-scale segments. It includes

detailed breakdowns for national average system costs for France, Germany, Italy, Spain and the UK across the three segments. It also provides.

## Portable pv system quotation in France 2025

### France moves toward PV self-consumption amid feed-in tariff cuts

The trend has only intensified in 2025. As of early 2025, PV systems with a capacity of up to 9 kW now receive a feed-in tariff (FIT) of just EUR0.04/kWh. In stark contrast, the current ...

### [France solar capacity 2025 Surges with 1.4 GW](#)

Solar production in mainland France also rose by 48% year-on-year, contributing 5.1% to the national electricity mix. France solar capacity 2025 expansion overview France's solar power sector has achieved a significant ...

### [France releases new FIT rates for PV systems up to ...](#)

France's energy regulator, the Commission de Régulation de l'Énergie (CRE), has released FIT rates for rooftop solar installations up to 500 kW in size for February to June 2025. For February
