

Portable solar electric fence unit

Overview

What is a portable solar electric fence system?

Portable solar electric fence systems are commonly used for livestock and agricultural applications. These systems typically use a 12V battery to power an electric fence energizer, which delivers up to 0.04 Joule of energy per pulse.

How does solar electric fencing work?

With solar electric fencing, electric fencing typically does not have a fence and instead has solar panels that are connected wirelessly to an electric fence charger. The charger is battery-powered and can be placed anywhere in the fence area. The charger requires sunlight, which causes solar cells on the panel to produce electric current.

What is a solar electric fence charger?

A solar electric fence charger typically requires three components: a fence charger, a battery to power the charger, and a solar panel to replenish power to the battery as it is consumed by the fence and charger. The fence charger will require different inputs for each fence type and brand.

Can a solar electric fence charger power a rechargeable battery?

A solar fence charger can power rechargeable invisible fence batteries and above-ground electric fences alike. These solar electric fence chargers absorb light and convert it to usable energy to electrify your fencing. For extra reassurance, choose an electric fence charger with various power sources.

What are the different types of solar electric fences?

The various types of solar electric fences are: Permanent solar electric fences are powered by solar energy and require no batteries. These fences rely on solar power to operate and are vulnerable to lightning strikes, so it is necessary to protect them with a lightning diverter or arrestor.

How much does a solar electric fence cost?

On average, a solar electric fence for a small farm or residential property can range from \$200 to \$500 for a basic kit. For larger farms or properties, the cost can increase up to several thousand dollars depending on the size of the fence and the number of animals it needs to contain. How to choose the right Solar Electric Fence?
