Who are the best solar EPC companies?

Goldbeck Solar GmbH: EPC company from Hirschberg Established in 2001, Goldbeck Solar GmbH boasts a stellar reputation for delivering turnkey solar EPC solutions. Their specialisation in large-scale solar projects has enabled them to accumulate an impressive installed portfolio capacity of over 1.5 GWp.

How does EPC work?

The project development usually ends with the handover of the development documents by the project developer to us, the EPC service provider, as part of the "technical due diligence package". Our EPC scope of work typically ends with documentation, acceptance and transfer to the operational phase.

What is EPC management?

As part of EPC management, we provide support in the professional tendering of components and construction services as well as in the negotiation of contracts with suppliers. During the construction phase, we control and coordinate all trades and deliveries within the framework of coordinated logistics and time management.
