Portable solar generator off-grid project cost in India

Overview

The average price of an off-grid solar system in India typically ranges from ₹85,000 to ₹1,05,000 for a 1kW system, with the cost scaling up for larger capacities-reaching up to ₹7 lakh or more for a 10kW system, including installation and batteries.

The average price of an off-grid solar system in India typically ranges from ₹85,000 to ₹1,05,000 for a 1kW system, with the cost scaling up for larger capacities-reaching up to ₹7 lakh or more for a 10kW system, including installation and batteries.

With rising electricity costs and limited grid access in many parts of rural and semi-urban India, off grid solar is emerging as a key enabler of energy independence. It empowers individuals and communities to take control of their power supply, reduce reliance on diesel generators, and contribute.

Discover everything about off grid solar systems in India – from prices, components, battery backup, benefits, and top providers in 2025. 2. National Green Shop Can an off grid solar system power an entire house?

Is an off grid system better than an on-grid system?

Do I need permission to install.

An off-grid solar PV system or off-grid solar system, is a solar power system unconnected to the utility electrical grid. Therefore, it is called a stand-alone power system (SAPS). The solar panels capture solar energy during the day, and the storage battery stores the extra energy to power.

Determine the price of an off-grid solar system for your home. Divide this price by your current cost of per-watt electricity. Divide the figure by the hours of electricity consumed in a year. This final number will decide how many years it will take to break even on your initial solar investment.

When we talk about the off grid solar system price, we're talking about everything ranging from procurement to installation and after-installation

services. Including everything, the off grid solar system price comes between ₹85-100/ watt peak including batteries. This price variation is because.
