# **Portable solar generator quotation in Panama 2030**

## Overview

---

The National Energy Plan 2015-2020 of Panama has an ambitious target of making 70 percent of the country's energy supply coming from a renewable source within a 35-year period. This plan is part of the country's long-term roadmap towards increasing energy efficiency and reducing carbon emissions.

There are many global suppliers and distributors of solar power equipment that are serving the Panama market. This is good news as the local solar power.

Panama has easy access to ports that facilitate logistics and handling of goods like solar power equipment from all over the globe. The list of the major seaports.
