

Portable solar generators for sale

Overview

What is a portable solar power generator?

A portable solar power generator is a suitable off-grid alternative power source for light use. It is powered by the sun and provides power. Several portable solar power generators are actually all-in-one power stations with rechargeable batteries that charge with solar energy, a wall outlet AC supply, or through a CIG port.

What is a solar generator kit?

A Solar Generator Kit has everything you need to go solar quickly and easily. Whether you want to keep your devices powered up during a blackout or take power with you on the go, Solar Generator Kits from Shop Solar have the top portable power stations on the market yet still manage to save you 50% or more on the cost of a solar power system.

Are portable solar generators a good choice?

Like other portable generators, two or more solar generators can be joined, or “chained,” together to increase storage and add power. Since portable solar generators don’t require gas to operate, they’re an excellent choice for camping or tailgating, as there’s no need to worry about hauling gas cans to and from your activities.
