

Portable solar light with phone charger

Overview

How small is a portable solar charger?

At just under seven inches, this portable solar charger is small enough to pack in your backpack, so toting it along on your next outdoor trip is a no-brainer. It also has an IPX5 rating, and in our testing, we found that it was rugged enough to handle exposure to light rain.

Do you need a solar phone charger?

You might find yourself relieved to have a solar phone charger on hand, which not only tends to be lightweight and easy to carry around, but these gadgets effectively leverage the sun's power to power up your devices.

Can a portable solar charger charge multiple devices at once?

In addition to being able to charge multiple devices at once, it also offers wireless charging if your phone is Qi-enabled. At just under seven inches, this portable solar charger is small enough to pack in your backpack, so toting it along on your next outdoor trip is a no-brainer.

Can You charge a light with a solar battery?

Whether charging via solar or USB, the outcome remains the same—a full battery charge. Our advice is to charge via solar for a natural source of power, but if you're in a pinch, charge via USB. Can I charge a device and use my light simultaneously?

.

What are LuminAID solar lanterns & phone chargers?

LuminAID solar lanterns and phone chargers allow families to illuminate shelters, contact loved ones, and improve safety in unstable environments. Partner organizations in refugee relief aid include SCM Medical Missions, Beit el Baraka, and NetHope. Our humanitarian partners are working every day to

help those in need.

Why should you use a solar power USB charger?

With a rugged solar power USB charger, the sun's limitless resources give you infinite access to electronic device charging, even in some of the most hostile places on the planet. That's not just convenient -- it can be potentially lifesaving. Free shipping on all orders over \$99. 100% money back guarantee. Contact Us Now!
