

# Portable solar panels and battery

## Overview

---

What are portable solar panels & solar battery chargers?

Portable solar panels and solar battery chargers are easy-to-use devices that provide backup power to anyone who happens to be away from a working power outlet, including hikers, car campers, and even people looking to keep their devices running during a power outage at home.

Are portable solar panels compatible with my portable power station?

There are two specs to check for when looking to see if your portable solar panel is compatible with your portable power station: power potential and connector/port compatibility. Portable solar panels aren't all that smart. Whatever blast of sun they are getting will be transmitted directly as power to your power station.

Can a portable solar panel power your home?

The sun powers our world, and with the right portable solar panel, it can also power your outdoor adventures or home emergency set up. I've tested dozens of models from top brands like Bluetti, Jackery, Anker, Goal Zero, EcoFlow, and BioLite, and have come away impressed with their power generation potential.

What are portable solar panels?

"Portable solar panels" are their larger, heavier, and higher-power siblings. Many portable solar panels are designed to charge an intermediary portable power station—often via a DC connector—but some are also equipped with USB ports that can charge small personal electronics directly.

How does a portable solar panel work?

Whatever blast of sun they are getting will be transmitted directly as power to your power station. So before you purchase a portable solar panel, first look at your power station to see how much solar input it can handle. (This is typically

found in very small font on the bottom of your power station).

Can a solar battery charge a portable power station?

Some of the higher-wattage models can help keep a portable power station charged, for running appliances like mini-fridges, lights, or air conditioners. Consumer Reports recently evaluated solar battery chargers and portable solar panels from a number of popular manufacturers, including Jackery, Allpowers, Renogy, and BigBlue.
