Our range of projects is supported by a 24/7 emergency response support along with ongoing service contracts around periodic and annual maintenance targets. Please remember to ask out our Service Contracts when designing/negotiating a new system with Compass.

Compass Marine is a full-service marine dealer for several leading international engine brands. We can provide maintenance service, wear part replacement, emergency repair, etc. Our trained technicians are available 24/7/365. Compass Solar is a turnkey EPC solutions provider for commercial solar PV.

Equipment costs typically make up 30-45% of total project cost. Equipment costs before contract signing should be very accurate. 3. At the completion of FEL 3, we typically say we have completed "Basic Engineering." This means there is still lots of detailed engineering remaining to be ready for.

At RESA Power, we offer paramount EPC support services, equipping our clients with the necessary tools for exceptional project outcomes, even for the most complex endeavors. Our team, which includes engineering consultants, is ready to offer consistent EPC support, guiding you every step of the way.

Grand Bahama Engineering Procurement and Construction is a Bahamian Electrical Engineering firm with projects throughout the Bahamas. Since 2009, we have successfully completed a wide range of electrical projects in the industrial, healthcare, and government sectors, as well as resort, solar, and.

Compass Solutions was founded in 2005 with the goal of providing clients in the Bahamas reliable options to safeguard their investment (s) utilizing standby power systems. Over the last decade, Compass has focused on providing best in class solutions in the energy sector evolving from humble.

In the Bahamas and the Caribbean due to the high cost of electricity and unlimited amount of sun. Solar is ideal for both homeowners and businesses to use in order to reduce their electricity expenses. At Green Bahamas our renewable energy department can design and install renewable energy systems. What is the engineering phase of an EPC project?

At RESA Power, the engineering phase of an Engineering, Procurement, and Construction (EPC) project typically begins with the development of a conceptual design with the engineer of record. This design takes into account specific equipment sizing and features, as well as any applicable regulatory requirements.

What does an EPC contractor do?

In some cases, the EPC contractor may also be responsible for installation or assembly. The procurement phase of engineering, procurement, and construction service can be complex and time-consuming, but it is essential to ensure that a project has the resources it needs to be successful.

What are the components of an EPC contract?

There are four influential components of the EPC contract. To understand cost risk, you must first understand how an EPC contract is priced (when done correctly): 1. A Front-End Engineering & Design (FEED) package is completed, often utilizing the Front-End Loading (FEL) process.

Why should you choose Resa power for EPC services?

EPC services not only aid in risk management and threat mitigation but also ensure timely and budget-conscious project delivery. For organizations seeking to streamline their engineering operations, collaborate with the trusted and dependable experts at RESA Power today. RESA Power offers EPC services for efficient infrastructure projects.

What is an EPC pricing effort?

When done properly, an EPC pricing effort is an aggregate of producing material takeoffs (MTO's), completing labor studies, adequately negotiating major equipment packages, and defining the balance of plant cost risk. In other words, data-driven analysis, and assumptions.

Can an EPC perform as a general contractor?

An EPC can execute entirely as a General Contractor (GC), but the ability to self-perform is typically advantageous. Self-performed work is often completed by craft labor that maintains a history of working together which impacts performance. 6. Last, but certainly not least, you have commissioning and startup considerations.
