

Price for solar panel installation near me

Overview

How much does solar panel installation cost?

On the high end, solar panel installation can cost over \$40,000. On the low end, it only costs a few thousand. It all depends. Additionally, none of these prices account for incentives like the federal investment tax credit (ITC), which can make your solar system up to 30% more affordable.

How much does it cost to install solar panels at Home Depot?

Learn more about The Home Depot's solar panel installation service. Solar power systems are very custom based on the home, roof type, shading, and utility. Installation of panels for the average 5kW system ranges from \$11,100-22,400.

How much does a solar system cost?

If you just need a few panels for a small do-it-yourself solar project, expect to pay around \$200 to \$350 per panel (between \$0.80 and \$1.40 per watt). Note: The table below doesn't include the cost of a solar storage battery, which can add anywhere from \$7,000 to \$18,000 to your total solar system costs.

How much does it cost to clean solar panels?

Solar panels require very little upkeep. If you're able to clean the solar panels yourself, the only maintenance cost will be the water used to hose them down. If you hire a professional to clean your solar panels, it will cost around \$100 to \$350, on average.

How much does a 400 watt solar panel cost?

Based on a 400-watt panel, the average U.S. home needs between 15 and 30 solar panels. Cost estimates by system size are as follows: Between the cost of materials and labor, you will pay between \$2.50 and \$3.50 per watt for solar panel installation.

How much does a solar inverter cost?

Inverter: A solar inverter converts the generated DC electricity into AC electricity that can be used to power your home. The cost of an inverter depends on its size and efficiency, but these devices typically cost between \$1,000 and \$3,000. Mounting system: This is what holds rooftop solar panels in place.
