

Price of solar panel installation near me

Overview

How much does it cost to install solar panels?

High installation costs keep many homeowners from buying and installing solar panels that they own. Average lease costs are between \$50-\$250 per month based on the size and overall production of your system. In many instances, solar providers offer free system monitoring, maintenance, repairs and insurance for the duration of your solar lease.

How much does it cost to install solar panels at Home Depot?

Learn more about The Home Depot's solar panel installation service. Solar power systems are very custom based on the home, roof type, shading, and utility. Installation of panels for the average 5kW system ranges from \$11,100-22,400.

How much does a solar system cost?

If you just need a few panels for a small do-it-yourself solar project, expect to pay around \$200 to \$350 per panel (between \$0.80 and \$1.40 per watt). Note: The table below doesn't include the cost of a solar storage battery, which can add anywhere from \$7,000 to \$18,000 to your total solar system costs.

How much does it cost to clean solar panels?

Solar panels require very little upkeep. If you're able to clean the solar panels yourself, the only maintenance cost will be the water used to hose them down. If you hire a professional to clean your solar panels, it will cost around \$100 to \$350, on average.

How much does a 400 watt solar panel cost?

Based on a 400-watt panel, the average U.S. home needs between 15 and 30 solar panels. Cost estimates by system size are as follows: Between the cost of materials and labor, you will pay between \$2.50 and \$3.50 per watt for solar panel installation.
