

Price of solar panel installation per watt

Overview

How much do commercial solar panels cost?

Generally, installing solar panels on businesses costs a bit less per watt because the systems are larger, but the total costs will be higher. In 2025, the average cost for commercial solar panels is just about \$2.00 per watt. There is a lot to consider when figuring out how much you'll spend on a solar installation.

How much does it cost to install solar panels?

Find a solar panel installer near you to get an estimate for your home. An average 1,500 square foot home will likely need 16 panels to cover its electric usage. If your home is shaded or faces east/west, you might need more than 16 panels. While panels themselves cost \$0.70 to \$1.50 per watt, the price to install solar panels costs \$3.20 per watt.

How much does a solar system cost per watt?

As of publishing, the average cost per watt is \$2.84. Most solar companies set the price according to the solar system's wattage. A solar installation's "cost per watt" is a little like the "price per square foot" when you buy a house. It helps compare the value of solar energy systems in different sizes.

How much does it cost to clean solar panels?

Solar panels require very little upkeep. If you're able to clean the solar panels yourself, the only maintenance cost will be the water used to hose them down. If you hire a professional to clean your solar panels, it will cost around \$100 to \$350, on average.

How much does a 6 kW solar system cost?

You'll pay \$4,200 to \$6,000 to set up a 6 kW system. Concentrated photovoltaic (CPV) panels are \$0.80 to \$1.10 per watt. While not as well-known as other types of panels, CPV panels are highly efficient and may grow

in popularity. A 6 kW solar system would cost \$4,800 to \$6,600.

How much does home solar cost?

The average pre-incentive cost of home solar is \$29,161 for a three-bedroom house, or \$20,412 after claiming the 30% tax credit. However, as shown in the chart below, the number of bedrooms isn't a great indicator of the size and cost of a solar system – and neither is living space, for that matter.

Price of solar panel installation per watt

[Solar panel costs in 2025: Prices & savings](#)

Key takeaways Average cost range: Residential solar panel system costs currently range \$2.65-\$3.30 per watt before incentives Federal Tax Credit: The 30% federal tax credit reduces a \$20,000 solar installation to ...

[Cost Of Solar Panels In Canda Explained](#)

For a typical 1,500 sq. ft. home in Edmonton, Alberta, solar panel installation costs range from \$18,200 to \$22,890 for a 7kW system, with per watt costs between \$2.60 and \$3.27, depending on the setup and equipment used.
