# Private solar panel installation

## Overview

---

Should you install solar panels without a permit?

Don't skip this crucial step – installing solar panels without proper permits can result in fines, mandatory system removal, or complications when selling your home. Many localities also require certification of your installation by a licensed electrician, even if you do the main installation work yourself.

How do I get a solar panel installation project started?

Get your solar panel installation project started by requesting a free in-home energy consultation using the form above. Our licensed, local professionals will review your solar energy needs, provide product recommendations, and review your pricing and financing options.

Where should a solar power system be installed?

Regardless of the type of solar panel used, the most ideal setup for a solar power system is installing solar panels on a roof — in a region with long peak sunlight hours — with the panels facing south (for homes in the Northern Hemisphere). Investing in a solar power system is easier today than ever before.

Can I install my own solar panels?

Installing your own solar panels can be legal and cost-effective, but navigating the regulations requires careful planning. Most states allow homeowners to install solar panels themselves, provided they obtain proper permits, follow local building codes, and pass required inspections.

Should you hire a certified solar installer?

While it's cost-effective, it's also risky. You need: For most users, hiring certified professionals is a safer and more efficient path in the solar panel installation for beginners journey. 11. Understanding the Solar Installation Timeline.

## How do I choose a solar system for my home?

The first stage in the residential solar installation process involves evaluating the solar potential of your property. This assessment covers: These details help determine how many solar panels for home you'll need and what energy output to expect. 2. Choosing the Best Solar Panel System Not all panels are created equal.
