

Pv storage container EPC service price in Spain

Overview

What does EPC stand for?

Solar engineering, procurement and construction (EPC) services. Solar photovoltaic systems are an essential part of the Spanish energy mix. As a specialist photovoltaic services company, Ethical Power can deliver the full-wrap EPC (Engineering, Procurement, Construction) of solar photovoltaic projects of all sizes.

What is an EPC project?

EPC projects that are also known as 'turnkey' and as the contractor assumes responsibility for engineering services, procurement of materials, hiring of teams and materials, and execution of the work, among other tasks, to deliver the project ready to be operated by the client by a given deadline and with a number of guarantees.

Is Spain a good place to invest in PV?

Spain is at present the most attractive place of Europe to invest in PV, thanks to the available infrastructure, new market regulation and high radiation of the sun. We carry out the development and manage the EPC and exploitation of utility scale PV installations in Spain.

What is an EPCF project?

EPCF projects are those in which the client entrusts Symtech Solar and its Partners as contractors with the complete execution of the work, from engineering design, procurement, construction, testing and commissioning and even the finance.
