# **Requirements for solar panel installation**

## Overview

---

Do you need a permit to install solar panels?

Generally, local governments require a homeowner's solar installer/contractor to obtain a permit for rooftop panels before they can be installed. After the PV system is installed, a professional from the local government will inspect the new array to ensure all building, electrical, and safety codes have been followed.

What zoning & electrical permits are required for solar panels?

Electrical Permit: Required for any electrical work involved in the installation, ensuring it meets safety standards. Zoning Permit: Ensures that the installation complies with local zoning laws, which may regulate the placement and appearance of solar panels.

Do you need an electrician to install solar panels?

Most states allow homeowners to install solar panels themselves, provided they obtain proper permits, follow local building codes, and pass required inspections. However, any electrical connections to the power grid must typically be completed by a licensed electrician.

Can I install my own solar panels?

Installing your own solar panels can be legal and cost-effective, but navigating the regulations requires careful planning. Most states allow homeowners to install solar panels themselves, provided they obtain proper permits, follow local building codes, and pass required inspections.

Do I need a building code for solar panel installation?

Required fields are marked \* Building codes for solar panel installation are crucial for ensuring the safety, efficiency, and longevity of solar energy systems.

Do you need a solar company to install your solar system?

In most cases, your solar company orders your panels and system parts for you, especially in the event of a lease or PPA. If you've skipped a few steps and already have your solar panels, some contractors may be willing to install your rooftop array and complete the system with any other components necessary for safe and efficient operation.

## Requirements for solar panel installation
