

# Roof leaks from solar panels

## Overview

---

Is it the solar panels that are leaking?

If solar panels are not ideally suited for your roof, poor installation tactics can make your roof leak. Roofs made from wood shingles, clay, slate, and terracotta tiles are particularly vulnerable to leaks and damage during installation.

Can solar panels cause a leaking roof?

Solar panels should not cause a leaking roof when installed correctly. However, incorrect installation or shoddy workmanship can lead to leaks. In both cases, the leak can usually be fixed, but it might be more extensive than resolving a wiring issue.

How do you fix a roof leak under solar panels?

To fix a roof leak, identify the source, repair the roof, inspect and upgrade the mounting system, and reinstall and seal the solar panels properly. Improper installation practices and pre-existing roof issues are the primary culprits behind roof leaks under solar panels. Let's delve into each cause: 1. Poor Installation Practices.

How do I know if my solar panels are leaking?

Pooling water on the roof or around the solar panels clearly indicates a roof leak. If you observe standing water after rainfall, it's crucial to investigate further and identify the source of the leak. 4. Decreased Energy Production or System Performance A roof leak can also impact the performance of your solar panel system.

Can solar panels be installed on a roof?

Most modern roofs are compatible and able to withstand the installation of solar panels, but in some cases, the roof material is susceptible to leaks. If your roof is made from clay, terracotta, wood shingles, or slate, there is an

increased risk of leaks developing through the installation.

What causes a roof leak?

There could be any number of causes for a leak, including damage caused by walking on the roof, dragging solar panels, or having a tile break in the underlayment. These are not issues you can resolve yourself, and since your warranty would cover these issues, your first call should be to your installer.
