

Small construction business solar energy

Overview

Should small businesses switch to green energy?

The cost of solar power has dropped by over 60% in the last decade, making the switch to green energy a compelling choice for small businesses. The multifaceted advantages of solar energy can resonate with business owners across the political spectrum, acknowledging the appeal of affordably priced electricity for their operations.

Where can I get funding for solar technology?

Resources available through the U.S. Department of Energy (DOE), national laboratories, nonprofit organizations, and other government agencies can help small businesses and entrepreneurs work through the steps necessary to develop and advance their solar technologies. Where can I apply for funding to help move my innovation closer to market?

.

Is solar energy a good investment for your business?

Embracing solar energy for your business is about future-proofing your company and demonstrating your commitment to sustainability. The financial benefits of solar power, from tax incentives to long-term savings on energy bills, are substantial and the impact goes beyond dollars and cents.

Can a small business start a new venture in solar & cleantech?

Launching a new venture in the solar and cleantech industries can be incredibly challenging for small business owners and entrepreneurs.

What are the benefits of a small-scale solar system?

Small-scale solar installations can generate power exclusively for on-site use, placing power production “behind the meter.” The switch to solar energy not only brings financial benefits but also reduces demand on the grid,

consequently decreasing power generation from non-renewable sources like coal and natural gas.

Can a company finance a solar project with a non-recourse basis?

However, individuals (including partnerships or limited liability companies), S corporations, and closely- held C corporations financing a solar project by borrowing on a “nonrecourse basis” face additional rules that may delay claiming of the ITC.
