

Small solar pumps for fountains

Overview

Can a solar water pump make a fountain?

Solariver's solar-powered water pump can create beautiful fountains — even pushing water 4-6 feet in the air. Since not all water features need that much power or volume of water, some of our solar water pumps come with adjustable valve control so you can control the water flow.

What are the different types of solar fountain pumps?

Solar fountain pumps come in various types, each designed for different purposes and water features. Submersible solar fountain pumps are designed to be fully submerged in water. They are ideal for smaller water features such as birdbaths or shallow ponds.

What are submersible solar fountain pumps?

Submersible solar fountain pumps are designed to be fully submerged in water. They are ideal for smaller water features such as birdbaths or shallow ponds. These pumps are discreet and create a gentle flow of water, adding a soothing touch to your garden. Installing the best solar fountain pumps in your garden is a straightforward process.

Who makes the best solar water fountain pumps?

Dispatched and sold by Silicon Solar. Silicon Solar has manufactured water pumps for over 14 years making the AquaJet series solar water fountain pumps one of the most reliable solar pumps available on the market. This is the perfect cost effective solar pump kit to bring a little life to your terrace or garden.
