## Overview

---

As of 2025, there are currently no active solar battery rebates. However, Solar Victoria continues to support homeowners through an interest-free loan program for eligible battery storage systems.

As of 2025, there are currently no active solar battery rebates. However, Solar Victoria continues to support homeowners through an interest-free loan program for eligible battery storage systems.

The Victoria State Government has an open PV solar panel rebate and interest free loans to reduce the upfront cost barriers to getting an installation. Add the new Cheaper Solar Batteries Rebate for 2025, and you can have a completely new, price-reduced solar system for your home, rental property.

All-electric homes, powered by solar, can save you thousands on energy bills every year. Find out everything you need to know about making the switch. Solar panel rebates plus the option of an interest-free loan are available for eligible Victorian homes. Solar Victoria is no longer taking.

Some rebates and incentives can significantly lower the upfront cost of your solar battery system. Although Victoria's original battery loan scheme has ended, the introduction of the federal Cheaper Home Batteries Program means there are still great ways to save. In this guide, we'll break down.

In this article, we explain the Victorian Government's current home battery subsidies and rebates (such as the Solar Victoria program) and how they work. You'll learn who is eligible, how to apply, and how to combine state-level incentives with new federal programs for maximum savings and energy.

Thinking about adding a solar battery to your home in 2025?

While direct solar battery rebates in Victoria have ended, homeowners still have access to interest-free loans and finance options through the Solar Homes Program—making solar battery storage more accessible than ever. In this updated.

As of 2025, eligible households can access a rebate of up to \$2,950 to help cover the cost of installing an approved solar battery system. This can reduce your upfront cost by 30–40%, depending on the system you choose. Example: If your battery and installation cost \$9,000, the rebate brings it. What is the solar battery rebate in Victoria?

The Solar Victoria Battery Rebate is one of the most generous programs in Australia, but not everyone qualifies automatically. Here's what you need to know about solar battery rebates in Victoria: how much you can get, who's eligible, and how to apply without the headaches. **How Much Is the Solar Battery Rebate in Victoria?**

## What is the solar Victoria Battery loan scheme?

Through the Solar Victoria Battery Loan Scheme, eligible homeowners can access an interest-free loan of up to \$8,800 to install a home battery storage system. In this guide, we'll break down the eligibility criteria, how the scheme works, which batteries qualify, and how Solar Power Nation can assist you every step of the way.

## Can Victorians get a rebate for solar panels?

With the new Cheaper Home Batteries Program, Victorians can access additional government rebates and interest-free loans for installing batteries. Here's the ultimate guide to the latest solar rebates and interest-free loans for solar panels, solar batteries and hot water systems.

## How does solar Victoria work?

Solar Victoria delivers the Victorian Government's Solar Homes Program, which offers rebates and interest-free loans to help households save on solar and transition to efficient all-electric homes. There are three types of incentives for eligible Victorian households with existing homes or homes under construction: Solar hot water system rebate.

## Can you get a solar loan in Victoria?

In addition to Victoria's interest-free loan of up to \$8,800, eligible homeowners can also claim the Federal Government's Solar Battery Rebate, which offers up to \$372 per usable kWh of storage. This federal incentive can provide up to ~\$4,000 off the upfront cost of a 10–13.5kWh battery system — a true

discount, not a loan.

Who is eligible for a Victoria solar rebate?

Victoria solar rebate eligibility for homeowners: **Property Ownership** You are the owner-occupier of an existing home, or you own a home currently under construction, and the battery system will be installed there. **Income Limit** The combined taxable income of all property owners is less than \$210,000 per year. **Property Value**
