

Solar charging panels portable

Overview

What are portable solar panels & solar battery chargers?

Portable solar panels and solar battery chargers are easy-to-use devices that provide backup power to anyone who happens to be away from a working power outlet, including hikers, car campers, and even people looking to keep their devices running during a power outage at home.

Are portable solar chargers a good idea?

Portable solar chargers don't have this problem, and as long as the proper conditions are met, they can provide a practically unlimited supply of electricity for your mobile devices, flashlights and battery packs or portable chargers. Compact and lightweight, they're perfect for camping, travel and emergency use.

What is a solar battery charger?

By "solar battery chargers," we mean lightweight, lower-wattage devices that can directly charge personal electronics while on the go, typically via USB port. "Portable solar panels" are their larger, heavier, and higher-power siblings.

How much does a portable solar charger cost?

Specifically for this buyer's guide, we conducted online research and identified over a dozen portable solar chargers ranging in price from \$30 to \$649. After careful consideration, we narrowed down the candidates to a handful that we tested in real-world conditions.

Can a solar battery charge a portable power station?

Some of the higher-wattage models can help keep a portable power station charged, for running appliances like mini-fridges, lights, or air conditioners. Consumer Reports recently evaluated solar battery chargers and portable solar panels from a number of popular manufacturers, including Jackery,

Allpowers, Renogy, and BigBlue.

Which solar charger should I buy?

If you're seeking a super portable solar charger for the backcountry or something small, affordable, and durable for your daily life, this is worth consideration. Or, for a larger and more powerful but still portable panel, we recommend the SunJack 25W. It weighs 29.4 ounces, 17.05 more than the Nomad 5, but it has a better charging speed.
