Nobody has a crystal ball, but experts predict solar and battery prices will remain relatively stable in 2025, with fluctuations of around 5-10%. However, potential trade disputes and new tariffs could shift this outlook.

The solar container market is experiencing robust growth due to several key factors. One of the primary drivers is the increasing global emphasis on renewable energy sources as a means to combat climate change and reduce carbon emissions.

On a regional scale, the Asia Pacific region is expected to witness the highest growth in the solar container market, driven by increasing government investments in renewable energy infrastructure and rising energy demands in remote areas.
