## Overview

---

Under the Renewables Act, applicable as of 1 January 2016, there are two types of incentive for renewables and cogeneration: (i) a premium tariff support scheme allocated through tenders, based on which eligible producers of electricity from RES may.

Directive (EU) 2018/2001 establishes that EU Member States will collectively ensure that the share of energy from renewable sources in the Union's gross final consumption of.

In relation to the existing generation facilities that have contracts with HROTE based on the tariff system and the (future) facilities up to 500 kW that are eligible for the guaranteed.

Projections for the development of RES until 2030 and 2050 are ambitious and require significant investment, detailed planning and strategy. Such projections are corroborated by.
