Solar copper fountain kit

Overview

Can a solar water fountain be used as a garden decoration?

Our solar-powered water fountain is not just an ordinary garden decoration - you can use it to create a variety of water features as well! Install it higher above the ground and use it as a bird bath. Put it in your pond to help with water circulation. You can even use it as addition to your hydroponics garden.

Where can I put a solar water fountain?

Another benefit of our solar-powered water fountain is that you can practically place it anywhere in your garden! As long as the panels are under direct sunlight, you can install our water fountain wherever you please. You can put the fountain under the shade, but you still need to find a sunny spot for the panel.

Should I install a solar-powered water fountain in my garden?

Installing our solar-powered water fountain in your garden does not only help enhance its aesthetics and ambience - it's also a great way of minimizing your energy consumption. By using solar energy, you're helping to reduce the fossil fuel consumption of power plants, and consequently, the amount of carbon dioxide they emit.

Where can a solar fountain pump be used?

These solar fountain pumps can be used almost anywhere at home (backyard, garden, patio, pool and much more), as long as there is enough sun. ☀
