

Solar cover storage box

APPLICATION SCENARIOS

Overview

How do you store a solar pool cover?

Storing your solar pool cover is a simple, one-step process. Remove the cover from the pool and lay it in the saddles. This immediately takes the cover off the pool and stores it out of the way. If positioned at the far end of the pool, the cover may even be out of sight from your deck.

What is above ground solar cover storage?

The easy, economical answer to above ground solar cover storage. A one-person, one step operation to remove and replace your solar cover. The Solar Saddle keeps your pool area looking neat by eliminating the need to store your solar cover on the deck or in the grass with its unique cradling system.

How do you put a solar cover in a pool?

Alternatively, from outside the pool, start the leading end of the cover over the pool edge, grasp the cover, and walk along the poolside, laying the cover as you go. Dive In! The Solar-Ez Solar Saddle Pool Solar Cover Holder provides an easy solution to storing your above ground pool cover while the pool is in use.
