

Solar electric fence controller manual

Overview

How should I ground a fence controller?

To ground this product, properly install a ground rod and electrically connect it to the fence controller's output ground terminal. For safety against electric shock, an AC line operated fence controller features a polarized plug (one blade wider than the other) that fits in a polarized outlet only one way.

How do you power a fence with a Solar Energizer?

To power a fence with a solar energizer, place it in the sun and turn it on for three days before use to ensure the battery has a sufficient charge. For DC energizers, power the fence by connecting alligator clips to a 6 or 12-volt rechargeable deep cycle marine battery.

How do I connect a solar guard 50 to a fence?

Connect the fence ground terminal to the ground system. Connect the battery (the positive terminal is disconnected before shipping). Fence output terminal (red). Page 4 Connecting the positive terminal on the battery - SolarGuard 50 Place the unit face-down on a flat surface (solar panel downwards as shown).

How do I install a fence controller?

Fence Controller Installation STEP 1: Charge Battery Models

SP3/LIS3/SP10/LIS10 Model SP30 NOTE: Make sure switch is in the OFF (0) position. • Battery is pre-installed in all models. With fence controller in OFF position, allow the sun to fully charge the battery for three days to ensure optimal battery life.

Can You charge a fence controller with a battery?

Always disconnect battery-powered fence controllers from the battery before recharging the battery. Failure to do so may damage your fence controller and battery charger, and void your warranty. Never run more than one fence controller on the same fence line at one time.

Does a fence controller have a polarized plug?

An AC line operated fence controller has a polarized plug (one blade wider than the other) to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug.
