How do I connect my O'Briens electric fence?

If you are using our electric fence products, then I can suggest what you'll need for the system. You will connect the O'Briens 100m x 40mm Electric Fencing Polytape to an O'Briens 135km Mains/Battery Electric Fencing Energizer for mains power. For a solar-powered fence, connect the tape to an O'Briens Electric Fencing Solar Energizer.

What is O'Briens electric fencing?

O'Briens Electric Fencing offers an easy solution for containing your animals, splitting paddocks to manage grazing, or protecting your gardens from your pets or wild animals. Easy to install and maintain, the O'Briens range is an economical solution for your property. Check out our range of O'Briens products online and at your local Bunnings.

Are solar electric fences a good option?

Solar electric fences are great options for an area that gets a lot of sun, or for an area that is not close to an electrical outlet. Solar fences tend to be slightly more costly, and rely solely on the sun shining. Plug in electric fences are more reliable than solar fences so long as you don't have any extended power outages!.

Should I get a solar panel fence charger?

You can also choose to get a solar panel fence charger if you don't want to plug in your electric fence (or it is too far from a power source). If this seems a

bit overwhelming, you have the options of purchasing a full, simple electric fence kit that has everything needed.
