

Solar electric system installation companies

Overview

How do I choose a solar installation company?

Research solar installation companies and get multiple quotes: This process can help you get a sense for each company's options and reputation and general expectations for how much power a solar installation can produce on your home. We suggest vetting at least three solar companies, depending on the availability in your area.

Who is solar software company?

We're a solar software company that empowers homeowners to find custom solar panel systems. Our goal is to simplify the solar buying process and offer clean energy consumers choice and transparency. We're not like other solar companies, we design custom solar panel systems across California and the U.S.

Who is solar electric?

Solar Electric is more than just a solar installer - we love solar and we are passionate about what we do. Since the day we started Solar Electric over 20 years ago, we wanted to make sure everything goes right on every solar installation we do. That's why we do everything in-house and only hire and train the best in the business.

How do I meet with a solar installer?

When you meet with a solar installer, a representative should walk you through the company's specific design and installation process, but below, we'll give you a high-level overview of how solar installation typically works.
