Solar energy for your home cost

Overview

How much does a solar panel cost?

Today's premium monocrystalline solar panels typically cost between 30 and 50 cents per Watt, putting the price of a single 400-watt solar panel between $120 to $200, depending on how you buy it. Less efficient polycrystalline panels are typically cheaper at $0.25 per Watt. The cost of a solar panel also depends on how you buy it.

How much does a commercial solar system cost?

Commercial solar installations are a great way for companies to lower energy costs. Generally, installing solar panels on businesses costs a bit less per watt because the systems are larger, but the total costs will be higher. In 2025, the average cost for commercial solar panels is just about $2.00 per watt.

How much does it cost to clean solar panels?

Solar panels require very little upkeep. If you're able to clean the solar panels yourself, the only maintenance cost will be the water used to hose them down. If you hire a professional to clean your solar panels, it will cost around $100 to $350, on average.

Is home solar more affordable than paying for utility electricity?

Although home solar is already more affordable than paying for utility electricity, there are a few ways to reduce the cost of your system and maximize your energy cost savings. First, there are solar incentives offered by federal, state, and local governments, in addition to utility providers.

Do home solar panels save money?

Home solar installations include more equipment than just solar panels. You don't need to live somewhere warm or with abundant sunshine to save with solar. Most homeowners will save tens of thousands of dollars by going solar. Solar panels come with great incentives—but the best federal program expires

on January 1, 2026.

How much does solar installation cost?

On the high end, we talked to a solar customer in Hawaii who spent $100,000 going solar. Dion in Nevada said their 10-kW system cost about $20,000, which is about the national average price for a 7-kW system. What else affects solar installation costs?
