

Solar energy latest news

Overview

Check out our selection of solar energy news from all over the globe. All the top recent events in solar thermal and photovoltaic market. The latest research, innovative technologies, industry trends and forecasts, financial news, large projects, governmental policies.

Check out our selection of solar energy news from all over the globe. All the top recent events in solar thermal and photovoltaic market. The latest research, innovative technologies, industry trends and forecasts, financial news, large projects, governmental policies.

The global solar market is burgeoning, and it's predicted that the world will have 1 trillion watts of installed solar PV capacity by 2023. There are enormous potential and massive opportunities for energy investors; as well as for renewable energy supporters who are striving to achieve SDG 7.

National Grid Ventures (NGV) will test the world's first 100% hydrogen-fueled linear generator at its Northport plant for 12 months, supported by \$11 million in New York State funding. Maxeon Solar Technologies says its net loss widened to \$65.5 million in the first half of 2025, while Power.

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

Enviromena expands UK solar footprint with Longpasture acquisition, enhancing energy distribution with battery storage and powering 56,000 homes annually by 2027. Ohio's Power Siting Board greenlights EDF's 220-MW solar project, set to power 42,000 homes, boosting Central Ohio's energy future and.

Read the latest news and techniques for efficient solar photovoltaic power, new solar energy systems and more.

US energy infrastructure company Zenith Volts Corp (ZVC) has received county approval to build a 1.25-GW-plus data centre powered by a hybrid system, including solar, in New Mexico. Germany's Green Party has criticised

Economy Minister Katherina Reiche's energy policy and set out four demands aimed. What's happening in the solar industry?

NextEra expands West: Utah backs a 200MW Salt Lake City battery with a 25-year tax break, boosting grid stability & clean energy. 11.04 GW of new solar capacity in July, down about 48% YoY: China's PV sector sees a slowdown but shifts focus to quality and strategic. Trade wars & oversupply: India's solar industry at a crossroads.

How much solar power will the world have by 2023?

The global solar market is burgeoning, and it's predicted that the world will have 1 trillion watts of installed solar PV capacity by 2023.

What happened to solar power in H1 2025?

Reuters analysis shows utility-scale solar capacity still climbed 10 % in H1 2025, led by Texas and Arizona, even after tax-credit cuts. China's JinkoSolar files second EU Unified Patent Court case against rival Longi, claiming infringement of premium back-contact technology.

Can aging gas stations be transformed into solar-wind hubs?

Transform aging gas stations into solar-wind hubs, cutting emissions and costs while meeting California's clean energy goals. Tindo Solar secures AU\$34.5M to boost Adelaide factory, powering 35,000 homes annually and creating 50 jobs, while planning a 1-GW gigafactory to enhance Australia's solar independence.

What's happening in the global PV industry?

In a new weekly update for pv magazine, OPIS, a Dow Jones company, provides a quick look at the main price trends in the global PV industry. Waaree Energies has launched flexible solar modules up to 70% lighter and under 3.5 mm thick.

What was insolation energy's net profit in fiscal year ended March 31 2025?

Updated On : 30 May 2025 | 5:00 PM IST Leading solar module manufacturer Insolation Energy Ltd on Tuesday reported over two-fold jump in net profit to Rs 126.19 crore in the fiscal year ended March 31, 2025 on the back of rise in revenues. In the financial year ended March 31, 2024 the company had posted a net profit of Rs 55.47 crore.
