

Solar energy market growth

Overview

The report also covers the market size and forecasts for the solar energy market across major regions. For each segment, the market sizing and forecasts are provided based on installed capacity.

The report also covers the market size and forecasts for the solar energy market across major regions. For each segment, the market sizing and forecasts are provided based on installed capacity.

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The Solar Energy Market size in terms of installed base is expected to grow from 2.35 Thousand gigawatt in 2025 to 6.26 Thousand gigawatt by 2030, at a CAGR of 21.64% during the forecast period (2025-2030). This rapid.

The solar energy market is on a strong growth trajectory, driven by the shift toward cleaner power sources, government incentives, and rapid technology adoption. From AI-powered efficiency gains to falling installation costs, solar is becoming a cornerstone of global energy strategies, with Asia.

The year 2024 was a true landmark year for solar power. Global solar installations reached nearly 600 GW – an impressive 33% increase over the previous year – setting yet another record. Solar accounted for 81% of all new renewable energy capacity added worldwide. While remaining a modest.

In the Worldwide Solar Energy market, electricity generation is projected to reach 1.39tn kWh in 2025. An annual growth rate of 7.39% is anticipated during the period from 2025 to 2029. As global awareness of climate change intensifies, countries worldwide are increasingly investing in solar energy.

The Solar Energy Market is poised for significant growth, with a projected market size of approximately US\$ 552,450.28 million by 2030, up from US\$ 207,270.00 million in 2022. This growth represents a robust CAGR of 13.0% during the forecast period from 2022 to 2030. Key segments driving this.

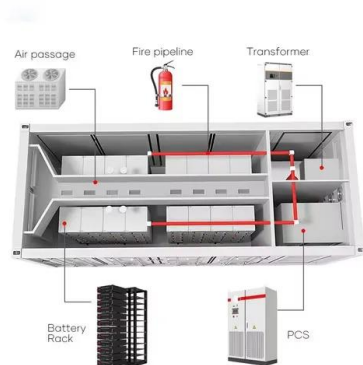

The global solar energy market size was worth around USD 271.73 Million in 2024 and is predicted to grow to around USD 1090.78 Million by 2034 with a

compound annual growth rate (CAGR) of roughly 13.6% between 2025 and 2034. The report analyzes the global solar energy market's drivers.

Solar energy market growth

[Global Solar Growth to Stabilize at 493 GW in 2025, ...](#)

The global solar industry witnessed strong growth in 2024, reaching a record 495 GWdc of installed capacity. It reflected a 14% year-on-year increase. The main reasons behind the solar boom were the rising demand for ...

[U.S. solar capacity expected to triple in next 10 years](#)

After years of record-breaking installation totals and double-digit growth, .growth in the U.S. solar industry is expected to be relatively flat over the next decade, said Sylbia Leyva Martinez, principal analyst, Wood Mackenzie ...

[Solar Energy Systems Market Size, Share Report. ...](#)

Solar Energy Systems Market Summary The global solar energy systems market size was valued at USD 160.3 billion in 2021 and is projected to reach USD 607.8 billion by 2030, growing at a CAGR of 15.7% from 2022 to 2030.

[Solar Energy Market Size, Share, Growth & Forecast 2032](#)

The global solar energy market is expected to experience growth due to rising demand for green electricity, advancements in solar

photovoltaic technology, and government support is boosting ...
