

## Solar for all epa

## Overview

---

In April 2024, EPA awarded 60 grants to states, territories, Tribal governments, municipalities, and nonprofits to expand the number of low-income and disadvantaged communities primed for residential solar investment—enabling millions of low-income households to access affordable.

In April 2024, EPA awarded 60 grants to states, territories, Tribal governments, municipalities, and nonprofits to expand the number of low-income and disadvantaged communities primed for residential solar investment—enabling millions of low-income households to access affordable.

Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy. Collectively, these programs will deliver.

The Environmental Protection Agency announced Thursday it is terminating its \$7 billion Solar for All program that was designed to bring renewable and affordable energy to low-income communities. Sources confirmed to CBS News earlier this week that the agency planned to scrap the program. Solar for.

Solar for All is a \$7 billion competitive grants program administered by the U.S. Environmental Protection Agency. In April 2024, EPA awarded 60 grants to states, territories, Tribal governments, municipalities, and nonprofits to expand the number of low-income and disadvantaged communities primed.

Solar for All would have brought clean, renewable energy to low-income and disadvantaged communities across the country Alexandria Trimble, [atrimble@earthjustice.org](mailto:atrimble@earthjustice.org) Yesterday, the U.S. Environmental Protection Agency (EPA) announced it intends to rescind all 60 grants awarded under the \$7 billion.

The US Environmental Protection Agency has cancelled the Solar For All program, a \$7 billion initiative that supported nationwide programs to provide solar energy for low and middle-income homeowners, which experts say may

negatively affect the solar industry in general. The cancellation was.

SfA represents a massive investment in residential solar energy across the country. SfA awardees are to use grant funds to support “low-income and disadvantaged communities to deploy or benefit from zero-emissions technologies,” for example, by financing solar installations and battery storage for. What is the \$7 billion solar for all program?

Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

Will the EPA end the Solar for all program?

With electricity rates rising, the termination of the Solar for All Program could not come at a worse time. Instead of focusing on cost-saving investments, the Trump EPA is keeping these communities reliant on polluting, fossil energy.”.

Will EPA rescind solar for all grants?

Yesterday, the U.S. Environmental Protection Agency (EPA) announced it intends to rescind all 60 grants awarded under the \$7 billion in Solar for All Program. The congressionally mandated program was designed to help homeowners and communities across the country get support to install solar panels and save money on their utility bills.

Why is EPA launching a \$7 billion solar for all competition?

ion-reducing projects in communities across the country. As part of this program, EPA is launching a \$7 billion Solar for All competition — designed to spur the deployment of residential distributed solar energy to lower energy bills for millions of Americans and catalyze transformation in.

What does EPA expect from solar for all grantees?

munity ownership to American communities and households. EPA expects Solar for All grantees to maximize the breadth and diversity of households served in the program, including rural, urban, and suburban communities; energy communities; and persistent poverty counties, while prioritizing investing in the most disadvantaged and low-income househo.

How will EPA evaluate a solar for all application?

low-income and disadvantaged communities and households. Specifically, EPA will evaluate the extent and quality to which the application: Details a plan to ensure all households that benefit from the Solar for All program experience minimum household savings of 20% of the
